Best-selling Author & Keynote Speaker
Fortune 500 Innovation Strategist
HBR Contributor & Business School Advisor

SIMONE AHUJA

STAGE INTRO

Today's keynote speaker is a bestselling author, and a world's leading expert in innovation and intrapreneurship.

Her unconventional yet practical perspective has her speaking around the world and advising institutions from Procter & Gamble, 3M and Stanley Black & Decker to MIT, the University of Cambridge and the World Economic Forum.

She is a self-described optimist who has dedicated herself to the "democratization of innovation" so that everyone is more empowered to address the problems around them - and so they can be more engaged and purposeful in their work. She helps shape our views on the future of innovation through her contributions to publications including the Harvard Business Review and FastCompany.

She's an avid practitioner of improvisational comedy who loves to bring that spirit of fun to her speaking engagements.

Please join me in welcoming Dr. Simone Ahuja.
